APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:
This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 21612, Certificate 7223 is issued subject to the terms and conditions imposed in said Permit 21612, Certificate 7223 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a measuring device must be installed in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.
This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.
The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.
This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on June 26, 1991 at which time all rights herein granted shall revert to the right being changed by this temporary permit.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.15 cubic feet per second, but not to exceed 640.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before _____
Proof of completion of work shall be filed before _____
